File Under	DARK WAVE / ELECTRO / MEDIEVAL - H

The dark brotherhood embarks into the cold. The Medieval-Electro-pioneers open up a new chapter of their saga, driving the listener on a journey into the eternal frost on a unique foundation of synthetic beats and deep sequencers, garnished with medieval instruments, walls of guitars and choral chants.

The new chapter in the fantastic journey of Ashlar von Megalon and his fearless friars seamlessly continues the story of the previous album releases of Heimataerde. On "Kaltwaerts" (= into the cold), the dark antagonist Zebaoth has captured friar Andreas and is now setting out to bring fear and horror unto the world. The brotherhood wants to stop this evil force at all costs and embarks into the cold to destroy the demon once and for all times and to rescue the friar. In this, Heimataerde manage to shake the floor yet again with a unique mix of club-compatible Electro-sounds and medieval atmosphere, while captivating the listener with an epic and moving story, at the same time. The mix of modern sounds, fantasy and long past eras has turned out even bigger, more powerful and fascinating, this time around. And for all those who wish to delve even deeper into the saga of "Kaltwaerts", the new Heimataerde-album is not only released as a music-CD, but also as a deluxe double disc version in a lavish double-Digipak which contains a bonus audiobook retelling of the story (German-language.) Become a part of the brotherhood! Follow us into the cold! The place where we are going will never see summer.
