Tony Starks returns to Staten Island after 9 years, like a man returning home from a war. He wants the company of old friends, to reunite with his girl, to live a quiet life.

But New York has other plans for him . . .

Pitchfork Media has said “**Ghostface** has unparalleled storytelling instincts. He might be the best, most colorful storyteller rap has ever seen”. Q Magazine called him “rap’s finest storyteller”. On his new release *36 Seasons* those powers have never been more in-focus, as he takes his listeners on a gut-wrenching journey of double-cross and revenge through the rough and rugged housing projects of New York’s Staten Island.

On *36 Seasons* Ghostface once again delivers exactly what the hardcore Wu-fans crave: desperate tales from the dark side over soulful boom-bap tracks. The soundscape is provided **The Revelations** [Brooklyn’s acclaimed soul band/production team]. Their hard-hitting tracks match the intensity of Ghost’s violent narrative. His co-stars on *36 Seasons* are legendary lyricists and storytellers in their own right, 3 of the greatest of all-time: **AZ**, **Kool G Rap** and **Pharoahe Monch**. The album also features vocal contributions from Blue Note Records’ rising star **Kandace Springs** and gritty soul singers **Rell** and **Tre Williams**.
