A founding member and unofficial leader of the Demigodz crew, one part of the super-group Army of the Pharaohs and down with the Connecticut crew Doe\$Rakers, Apathy is a highly skilled and versatile lyricist able to spit verses on nearly any topic from girls, to battling, to chess. He is also known for his freestyle ability which is often the highlight of his live performances. This double CD collection of Apathy tracks has 45 tracks and is a full 160 minutes long. That's just under 3 hours! All the songs are from the original masters and everything has been digitally remastered to professional standards, including the old classics like "Compatible", "Smackdown", "Ain't Nuthin' Nice", and "Just Begun". You'll never find a collection of all these songs in perfect quality anywhere else. A lot of tracks have never before been released on CD, and many are super rare. Every track is the full length version, nothing has been cut or faded out early. There's even three new, previously unreleased heaters: "Y'All Ain't Good Enough", "Public Execution (Demigodz Mix)" and "Don't Talk To Me". A must for any Apathy, Demigodz, Army of the Pharaohs or Doe\$Rakers fan!
