

THE FABULOUS THREE

THE BEST OF

Truth & Soul is proud to present a "Best of" collection by the very mysterious, very enigmatic, and always psychedelic, six piece funk ensemble that goes by the name...The Fabulous Three.

The Fabulous Three was discovered by legendary Soul Fire/Desco label head Phillip Lehman. In the early 2000's, he recorded a series of 45s that showcased their psychedelic, spiritual-jazz sound. In these recordings they seamlessly jump from reggae to spiritual jazz, afro-funk to soul ballads without it sounding the least bit contrived. Lehman released one 45 by the Fabulous Three on the Psycho subsidiary of Soul Fire before he closed shop and moved to the Dominican Republic. Since then, their music has been comped on Soul Fire: The Majestic Collection and Fallin Off The Reel but never has their entire catalog been compiled on one LP.

It is Truth & Soul's pleasure to show the world the weird and wild music of the Fabulous Three.
