AVAILABLE FOR RECORD STORE DAY

Here's what our unimaginative selves had to say about this single back in 2010 when it was digital-only: "Philadelphia's Menzingers offer up the focus track, "I Was Born", as a teaser single in anticipation for their upcoming *Chamberlain Waits* full length. All three songs are previously unreleased, including two acoustic B-sides." Typical half-ass stuff from Red Scare, right? Then they got really popular and we laughed all the way to the bank.

KEY SELLING POINTS:

- On tour with Taking Back Sunday this spring and playing gargantuan rooms!
- The 'Zingers are popular and this will sell out immediately. Real nice kids too!
- Rabid vinyl fanbase. You'll be able to identify their fans by their foamy snouts.
