Cleverly composed addendum EP to last year's critically acclaimed full length, "Connecticut Casual". Apathy continues his twist on New England-inspired backdrops, bringing contrasts of hardcore dirty loops to smooth melodies for relaxing by the Cape Cod shore. Core fans should appreciate this specially-priced companion disc as it is the icing on the cake upon the final chapter in the "Casual"-style series from the Demigodz chief. The EP is almost fully produced by Apathy himself, with one track handled by longtime collaborator Smoke The World. Showcased on the project are Connecticut's rising stars such as Blacastan, Suave-Ski, Jus Cuz and Prince Royal of The Voyagers along with two dangerous Californians, Locksmith and Wildcard, who brought their murderous vocals to the Cape for the weekend. Original art for the cover was created by the world renown Chris B. Murray.
