Eccentric Pop is beyond stoked to bring you the long-awaited follow up to the Putz' out-of-print 2014 LP, "Knock It Off!" The band pulled off a great feat in the last few years - growing as musicians and songwriters while never losing the snotty punk rock foundation that earned them so many fans in the first place.

Recorded by non other than legendary punk rock frontman Joe Queer (who makes several guest appearances throughout the album), "Clinically Inane" is exactly the record that Putz fans across the globe have been waiting for. Snotty, sneering vocals, two part harmonies, distorted power chords blasting through a Marshall stack... The Putz "Clinically Inane" is among the most perfectly-executed "Ramonescape" punk albums you will ever hear. Released in a super-limited first run on green and yellow vinyl!
