Las Vegas, Nevada rapper Dizzy Wright began rapping at just 8 years old in the group “DaFuture” with his brother and very close friend, his mother wrote his raps at the time. Dizzy broke through when he was discovered at the Sheikh Music “Rip the Mic” competition in 2010 and signed onto Funk Volume a few months later. In April 2012, Dizzy released his first Funk Volume album, SmokeOut Conversations, peaking at #2 on the iTunes Hip-Hop charts which he followed up with a free mixtape, Free SmokeOut Conversations, which has been downloaded over 200,000 times, and helped propel Dizzy to his own national 30-city tour. In December 2012, Dizzy went on to release the first of four EPs, The First Agreement, which reached as high as #2 on the iTunes Hip-Hop chart. In March of 2013, Dizzy gathered enough votes to be selected as the “People’s Choice” member of the XXL Freshman Class of 2013. Also in 2013, Dizzy released The Golden Age mixtape and followed it up with The Golden Age Tour. In 2014, Dizzy released State of Mind EP and toured the US with support from Scion AV. Following the momentum, in 2015 he hit the road in support of his sophomore album The Growing Process, peaking at #3 on iTunes. When 2016 hit, Funk Volume disbanded. No signs of slowing down, Dizzy dropped his Wisdom and Good Vibes EP and opened for Logic’s sold out, 44 city, “The Incredible World Tour”. Now he’s back for 2017 with a new project, The Golden Age 2, with incredible features, including one from Big Krit, plus album art by Skam2.
