FEATURES GUEST PRODUCTION FROM 7L, LOUIS MACKEY, & DR. QUANDRY

Godforbid (frontman of the band That Handsome Devil and underground emcee veteran of the Alaskan Fishermen) is saying something...prowling around the dark edges of the beat, and lashing for your throat with existential dread, scathing social commentary, and satiric self reflection, with a voice like a rusty razor. Dark rock riffs, psychedelic organs and an intense driving rhythms, with flows like he was born in the beat. Featuring production from DJ 7L and an appearance by MC Esoteric (Czarface) The world is on fire, the culture is burning, and Godforbid is roasting marshmallows and having post-apocalyptic sing alongs. We invite you to join him.
