## NEVER BEFORE RELEASED COMMERCIALY ON VINYL IN THE US!

This double live outing from Herbie Hancock was recorded in Tokyo in July of 1975. Backed up by The Headhunters, Hancock runs through selections from his albums Head Hunters, Thrust and Man-Child – that last project still being months away from release at the time of this recording. Get On Down's reissue of the vinyl will be the first US release for the double LP, ever.
