Chris Webby wednesday.

NOW AVAILABLE ON VINYL!

This project is the culmination of his Webby Wednesday campaign which started this past March and had him dropping a new piece of content every Wednesday. Since the launch he's sold thousands of singles, had millions of streams, and has been on several tours. It's been a very effective campaign for him - and very impressive that he was able to see it through.

The label will be circulating a video for "The Stickup" (#1 streamed song of the Webby Wednesday series) starring Vincent Pastore (Big Pussy on The Sopranos) very soon. This is Webby's second official album and his fans are eagerly anticipating the release.

Chris Webby has released many EPs and mixtapes such as the DJ Drama-hosted Bars On Me (2012) and his There Goes the Neighborhood EP (2011), which peaked at #101 on the Billboard 200. He has recorded songs with various artists such as Freeway, Mac Miller, Joell Ortiz, Big K.R.I.T., Method Man, Prodigy, Gatzby, Bun B, Tech N9ne, and Kid Ink. His official debut album Chemically Imbalanced peaked at #25 on the Billboard 200 in 2014.
