### 2<sup>nd</sup> album by Italian beatmaker on Melting Pot Music, home of Twit One, Summers Sons, Jake Milliner, The Silhouettes Project and others

Koralle kicks off 2021 with his second full-length album "Fonografie". 2020 was a real roller coaster year for Italian beatmaker Koralle. COVID-19 hit his hometown Bologna hard. Meanwhile, Koralle has been as busy as ever releasing eight singles from "Fonografie", including collabos with Cologne beat smith Twit One, London MC & activist Isatta Sheriff, Houston rapper Anti Lilly and Turt from Summers Sons. With the singles being a success and accumulating over 2.5 million streams thus far, Koralle has taken highly musical jazz beats to the next level. "Fonografie" consists of 16 tracks with more collaborators and will be available as digital album and vinyl LP.
