Formerly known as G.R.A.M.Z., Coach Bombay 3000 has built a following in the underground hip hop scene. As a native of Flatbush Brooklyn he's collaborated and toured with the likes of Curren\$, Flatbush Zombies, Bodega Bamz, ASAP 12vy, The Underachievers and many more. After establishing his recording career, Bombay eventually became frustrated with the climate of the music industry and turned his focus to the business side of the music industry. Coach Bombay 3000 began managing some of the most sought after artists in New York and establishing relationships with A&Rs and label heads at all levels.

Running Plays is Coach Bombay 3000's debut album as an executive producer. All of the artists and producers featured on the fourteen (14) track album were hand-picked by Bombay based on their talent and their potential to make a bigger name for themselves in the game. Incorporating a sports theme throughout the project, *Running Plays* is packed with live "in-game action" and gives the listener a courtside. With features from the likes of Rome Streetz, Chris Crack, ANKHLEJOHN, Al Divino, Bub Rock (and many more) and production from Sebb Bash, Work Scorsese, The Artivist and Wavy da Ghawd, *Running Plays* hits hard, from the opening tip to the final buzzer sounds.
