*Eto Brigante* is the one and only time Rochester's favorite son has done a concept album. The featureless affair is based on the classic gangster film *Carlito's Way*, as song titles like "Benny Blanco Club Scene" and "David Kleinfeld" make abundantly clear. Eto adapts the key scenes of the movie into rhyme in a way that only he can. The hardbody beats are handled by underground go-to's like V Don, Trox, Chup The Producer, MichaelAngelo, and more.
