**“Zambia’s rock scene in the 1970s is one of the great
unsung global music phenomena of the 20th century.”**

- Calum MacNaughton, Strawberry Rain Music

Presented here is one of the most rare Zamrock LPs you’ll ever encounter. Though *Dots* was recorded at Zambia’s Malachite Film Studios in 1978 the full-length never saw a release of any kind in any format until 2020. That’s when Strawberry Rain worked with Dave Cooley at Elysian Masters to do a full restoration and remastering for inclusion in an 8 LP Zamrock boxset. Remaining copies of this recently rediscovered Zamrock gem are now available as the Fireball’s *Dots* is issued for the first time ever as a stand-alone release.
