B4. Ending Scene Skit

B5. The Last Call (Remix)

While Eto's concept album *Eto Brigante* is definitely one of the highlights of his discography, one wonders what the project would have sounded like if the whole album was produced by a single beatmaker. Well, as good as the original is, listeners now have the chance to hear the lyrics buoyed by the singular vision of German producer TrickyTrippz. More than a remix album, this body of work aims to intensify Eto's rap retelling of the classic gangster film *Carlitos Way*.
